Yeonji Kim

yeonji-design.github.io yeonjikim.design@gmail.com +1 734 510 0407

UX Designer with 3+ years of experience designing **AI and data platforms**, specializing in enterprise tools for data scientists, analysts, and engineers. With a background in computer science and product management, I translate complex workflows into intuitive, production-ready experiences. I partner closely with engineering, data, and product teams to drive platform adoption, standardization, and measurable business impact.

work experience

Product Designer - AI+Data Platform | Intuit

Jun 2023 - Present | Mountain View, CA

- Leading end-to-end design for Intuit's internal data processing platforms used by data and software engineers to build, transform, and operationalize data at scale.
- Redesigned data production and promotion workflows across 4 platforms by introducing validations and guided experiences, increasing clean data rates from 25% to 75%.
- Launched a GenAI Use Case Registry that standardized how multiple product teams evaluate and ship AI features, onboarding 300+ use cases across TurboTax and QuickBooks teams.
- Partnered closely with data scientists and engineers to define technical workflow requirements, translating backend system constraints into scalable UX patterns.

Product Design Intern - AI Platform | Intuit

May 2022 - Aug 2022 | Mountain View, CA

- Designed and prototyped a cost management dashboard enabling AI leaders to monitor model investments and optimize resource allocation.
- Collaborated with engineers to define system requirements and interaction patterns for data-heavy dashboards.

Product Management Intern - Wallet Platform | LINE Corp

Jun 2021 - Aug 2021 | Gyeonggi-do, Korea

LINE is a messenger app that has 200M active users in Japan, Thailand, and Taiwan. In the app, users can send gifts via chat and this drives 90% of its revenue in Japan.

- Drove data-informed product strategy initiatives for LINE's commerce platform in collaboration with PMs and data scientists.
- Analyzed user behavior using SQL and Python to identify conversion bottlenecks and platform-level UX gaps.
- Proposed UX and funnel optimizations that improved purchase flow efficiency and user clarity.

UX Design Intern | Duotone

Apr 2021 - Jun 2021 | Seoul, Korea

- Developed end-to-end UX strategies for redesigning websites across 4 global clients.
- Defined information architecture and interaction flows, delivering high-fidelity designs through workshops and heuristic evaluation.

Product Manager | Gooroomee

Jul 2020 - Apr 2021 | Seoul, Korea

- Led design and launch of a video interview platform used by 2,000+ interviewees
- Designed CMS and core UX workflows for live course platform, improving student engagement and instructor content management.

skills

Design

UX/UI Design, System Thinking, Information Architecture, Interaction Design, Design Systems, Prototyping, User Flows

Research

Usability Testing, Competitive Analysis, Data Analytics, Contextual Inquiry, Heuristic Evaluation

Tools

Figma, Adobe Creative Suite, PowerPoint, Keynote

Technical

Python, SQL, Git, HTML, CSS, JavaScript
