Product Designer with 4+ years of experience turning complex systems into intuitive, high-craft experiences — shipped across interaction, visual, and systems design layers. Led 0-to-1 and iterative product work at Intuit scale, adopted across QuickBooks, TurboTax, and Mailchimp. Background in CS and product management; experienced presenting design strategy to executive stakeholders and partnering with PMs, engineers, and researchers from conception to launch.

work experience

Product Designer - AI+Data Platform | Intuit

Jun 2023 - Present | Mountain View, CA

- Defined target-state vision for Intuit's data search platform, designing a semantic layer for natural language data asset discovery and prototyping agent-powered solution concepts in partnership with engineering leaders.
- Redesigned data production/promotion workflows used by Intuit's data engineers, increasing clean data rates from 40% → 78% and eliminating data incidents — outcome driven by reusable widget system with inline validations and guided UX.
- Led end-to-end design of an internal GenAI Use Case Registry, a 0-to-1 product adopted across TurboTax, QuickBooks, and Mailchimp with 7.6K+ use cases onboarded, establishing a company-wide standard for evaluating and shipping AI features.
- Partnered with data scientists, engineers, and product leaders to define technical workflow requirements and presented design strategy to executive stakeholders.

Product Design Intern - AI Platform | Intuit

May 2022 - Aug 2022 | Mountain View, CA

- Designed and prototyped a cost management dashboard for Intuit's AI leadership, enabling real-time visibility into model spend and resource allocation decisions across a multi-million dollar ML portfolio.
- Collaborated with engineers to define system requirements and interaction patterns for data-heavy dashboards.

Product Management Intern - Wallet Platform | LINE Corp

Jun 2021 - Aug 2021 | Gyeonggi-do, Korea

- Defined the UX and monetization rationale for a data-driven recommendation system in LINE's gifting feature, grounded in SQL-based behavioral analysis across 200M+ users.

UX Design Intern | Duotone

Apr 2021 - Jun 2021 | Seoul, Korea

- Drove UX strategy for rebranding initiatives across multiple global enterprise websites, restructuring information architecture and page hierarchies to strengthen brand clarity and enable faster user navigation.
- Diagnosed usability and content issues through heuristic evaluation, facilitating cross-functional workshops to align stakeholder goals into cohesive, narrative-driven design solutions.

Product Manager | Gooroomee

Jul 2020 - Apr 2021 | Seoul, Korea

- Shipped a video interview platform used by 2,000+ interviewees, designing role-based access and distinct UX flows across user types and pricing tiers.
- Designed CMS and core UX workflows for live course platform, improving student engagement and instructor content management.

education

University of Michigan

M.S. Information —
UX Design and Research

Ewha Womans University

B. Eng. Computer Science
